

RET-NANO

RESEARCH EXPERIENCES FOR TEACHERS IN NANOTECHNOLOGY AT DREXEL UNIVERSITY AND THE UNIVERSITY OF PENNSYLVANIA

DATE: June 29, 2009—August 14, 2009

AS AN RET FELLOW YOU WILL:

- Gain hands-on experience working in a research laboratory
- Learn about the cutting-edge field of nanotechnology and develop lesson plans for your classroom based on your research experience
- Participate in a variety of professional development activities during the academic year
- Build your own website
- Learn what goes into a winning grant proposal
- Receive a stipend of up to \$6,000 and opportunities to earn Act 48 credits

WHO CAN BE AN RET FELLOW?

APPLICANTS MUST HAVE:

- An appointment as a teacher of science, technology, or mathematics at the high school or community college level
- An interest in including emerging technologies into your courses
- Demonstrated creativity in teaching
- Basic computer technology skills
- No research experience necessary

APPLICATIONS ARE AVAILABLE ONLINE:

<http://nano.drexel.edu/ret>

- Applications will be accepted through April 3, 2009
